

Client: Daniel | Claude Code Playbooks

The X Growth System

For Claude Code HQ

Hey Daniel — here's your system. No fluff, just what to do and when.

You have 100+ free playbooks with no paywall. That's the hard part done. Now you just need people to see them.

SUMMARY:

The Whole System in 8 Lines

1. **Connect.** Follow people in your niche. Ask to connect. Follow-for-follow works when you're starting from zero.
2. **Reply guy forever.** As long as you want to grow, keep replying on big creators' posts or small. The more per day the better — but every reply must be valuable.
3. **Post 2-5 times a day.** Tweets, threads, articles. The more content the more surface area.
4. **DM people.** Real conversations. Real value. Real relationships.
5. **Cross-platform eyeballs.** Reddit, LinkedIn, Slack, Discord — put your stuff where people already are.
6. **Engagement group.** Create a win-win organic content group where everyone boosts each other.
7. **Do it every single day.** The algorithm rewards consistency. Miss a day and it notices. Show up daily and it rewards you.
8. **Stay unique.** Don't AI slop your content. You are your brand. People follow people, not templates.

How This Works

This system runs on **milestones**, not timelines. Everyone moves at a different speed - what matters is the follower count, not the week number.

The milestones below stack on top of each other. When you hit the next number, add the next set of actions.

Your Daily Foundation

Do this every single day, no matter what milestone you're at.

- Leave **10 genuine comments** on posts in your niche
- Send **3-5 DMs** to people in your target audience (value first, never pitch)
- **Reply to every comment** on your posts - the faster the better

This is your base. Everything below adds layers on top.

Milestone 1

0 → 200 Followers

Your only job: get people to know you exist.

- **Follow 50 people per day in your ICP** - SaaS founders, accountants, lawyers, marketers, HR pros, anyone searching "Claude AI" or "no-code." About 30-40% will follow back.
- **Join 3-5 X Communities** - AI, Claude, automation, productivity. Introduce yourself. Ask questions. Share a playbook when it fits naturally.
- **DM people with something real**, not a pitch:
- **Post 1x Per day** - About your project

"Saw your post about [topic]. I built a free Claude playbook that does [specific thing] — no signup, just copy-paste. Thought you'd find it useful."

What NOT to do yet

Don't post content yet. Nobody's watching. Focus on being in other people's comments and DMs.

Milestone 2

200 → 500 Followers

People are noticing you. Time to reach bigger audiences.

Everything from Milestone 1 stays. Add these:

- **"Reply-guy" on big creators** - Find 5-10 accounts with 10K+ followers in AI/productivity or ICP. Reply to their posts within the first hour. Say something useful — their audience will click your profile.
- **Start an engagement group** - DM 10 creators at your level to create an **"Engagement group" or join one**. Everyone replies, likes, and bookmarks each other's posts within 10 minutes. This tells the algorithm your stuff is worth showing.

- **Post 2x per day** - One specific playbook use case per post: "Accountants: this playbook automates month-end docs in 10 minutes. Copy-paste, no code: [link]"

What to change

Slow down mass following to 20-30 per day. Shift energy to comments and replies.

Milestone 3

500 → 1,000 Followers

You have a real audience now. Feed it.

Everything from Milestone 2 stays. Add these:

- **Post 2x daily at peak hours** (7-9 AM and 5-7 PM ET). One playbook use case + one question or tip.
- **Ask questions that get replies** - "Founders, what are you building today?" (Engagement questions)
- **Record Loom walkthroughs of your top 10 playbooks.** Show before (manual) and after (automated). People need to see it work.
- **Go cross-platform with marketing** - Post playbooks on Reddit: r/ClaudeAI, r/ChatGPT, r/Accounting, r/smallbusiness, r/marketing. r/obsidianMD - Reddit loves free tools.

What to change

Drop the engagement group if your posts get natural traction. Keep reply-guying — that never stops working.

Milestone 4

1,000 → 100,000 Followers

There is no new strategy. Just repetition.

You already have everything you need. The system doesn't change — you just keep running it. Every single day.

- **Post at least 2x daily.** Every day. No breaks.
- **Reply to every comment.** Fast (in max 3 hours)
- **10 comments on other people's posts.** Every day. OR MORE (the more the better)
- **3-5 value DMs.** Every day.
- **Reply guy on big creators.** Every day.

- **1 Loom walkthrough per week.**
- **1 Reddit post per week.**
- **Screenshot every user win.** Post it.
- **One playbook = one post.** You have 100+ of them. That's 3 months of content sitting there. Use it. Then cycle back and do it again.

That's it. No new tactic. No hack. No shortcut.

The people who get to 100K do the exact same things as the people at 1K. They just didn't stop.

Daily Checklist

0 - 200 Followers

- ☐ Follow 50 people in your ICP
- ☐ 10 genuine comments
- ☐ 3-5 value DMs
- ☐ Reply to all comments on your posts
- ☐ Post 1x about your project
- ☐ Be active in communities

200 - 500 Followers

- ☐ Follow 20-30 people in your ICP
- ☐ 10 genuine comments
- ☐ 3-5 value DMs
- ☐ Reply to all comments on your posts
- ☐ Post 2x per day
- ☐ Reply to 5-10 big creators
- ☐ Engage in an engagement group

500 - 1,000 Followers

- ☐ Follow 20-30 people in your ICP
- ☐ 10 genuine comments
- ☐ 3-5 value DMs
- ☐ Reply to all comments on your posts
- ☐ Post 2x per day (peak hours)
- ☐ Reply to 5-10 big creators
- ☐ Post 1 engagement question

- ☐ Post in 1 Reddit community per week
- ☐ Record 1 Loom walkthrough per week

1,000+ Followers

- ☐ 10+ comments on other people's posts
- ☐ Ask engaging questions for replies and distribution
- ☐ 3-5 value DMs
- ☐ Reply to comments as much as possible (within 3 hours)
- ☐ Post at least 2x per day
- ☐ Reply guy on big creators
- ☐ 1 Reddit post per week
- ☐ 1 Loom walkthrough per week
- ☐ Share 1 user win as content
- ☐ Post 1 playbook breakdown

Summary again — The Whole System in 8 Lines

1. **Connect.** Follow people in your niche. Ask to connect. Follow-for-follow works when you're starting from zero.
2. **Reply guy forever.** As long as you want to grow, keep replying on big creators' posts or small. The more per day the better — but every reply must be valuable.
3. **Post 2-5 times a day.** Tweets, threads, articles. The more content the more surface area.
4. **DM people.** Real conversations. Real value. Real relationships.
5. **Cross-platform eyeballs.** Reddit, LinkedIn, Slack, Discord — put your stuff where people already are.
6. **Engagement group.** Create a win-win organic content group where everyone boosts each other.
7. **Do it every single day.** The algorithm rewards consistency. Miss a day and it notices. Show up daily and it rewards you.
8. **Stay unique.** Don't AI slop your content. You are your brand. People follow people, not templates.

Start tomorrow. Follow 50 people. Leave 10 comments. Send 5 DMs. That's day one.
